Control System

The Control System simplifies the use of the electronic equipment and systems installed in today's Luxury Lifestyle homes.

- **Ease of use**
- **Fully customizable**
- **Whole House Control**
- **Remote Control via Internet**

A Control System eliminates the need for multiple remote controls, simplifying access and functionality over your electronics. System functions on the Homes Network. See IT Solutions.

Typically, Home Cinema, Distributed Audio-Video, Environmental, Lighting, House Music, Secondary Audio-Video and Shading Solutions are intuitively accessed from a user-friendly Touch Panel or Hand Held Remote, as well as your iPhone, iPod or Smart Cell Phone.
