

Home Lighting Control

VS

Home Lighting Control

A Lighting Control System gives you the power to consolidate, customize and simplify the way the lights function in your home.

- **Green - Energy Saving**
- **Dramatic Lighting Effects**
- **Remote Access via Internet**
- **Simple To Use**

Home Lighting Control simplifies the function of room, and/or house, lighting levels through preset light levels of illumination, referred to as “scenes”.

Scenes are accessed via wall stations with engraved buttons for practicality, easy identification, simplification and clarity.
