Telephone System

The Telephone System is a communication solution providing in-coming and out-going telephone calls and room-to-room intercom.

- **Multi-Line Capable**
- **Do Not Disturb Feature**
- **Front Doorbell Option**
- **Voicemail Option**
- **Easy to Operate**

This Digital Telephone System supports hardwired desktop speaker phones and wireless cordless phones. One-touch speed dial, hands free answering with intercom feature, and communication with the Front Doorbell (optional). Doorbell rings over any combination of the phones on the system.

Multi-cell technology allows you to roam the property with a cordless instrument and stay clearly connected with the system.
